ANNUAL REPORT OF THE WEARE VOLUNTEER FIRE DEPARTMENT

A total of 33 calls was answered by the department during 1962. One call was from out of town for a bottled gas fire. Only one serious building fire took place in Weare. As the fire had been burning for hours until discovered by a passing hunter not much could be done to save much but the shell of the building.

Types of fires were: Buildings 2, Chimney 9, Brush of grass, 6, motor vehicles 9, Dump fires 4, Power-lines down and burning 2, and out of town 1.

Chimney fires decreased in number but are serious if flues are full of soot or defective. Even new chimneys require cleaning frequently if you burn wood. Range and pot type oil burners are the cause of many fires which take human lives. It is too late to have your oil burner serviced or replaced after it causes a fatal fire.

Most of the brush fires resulted from burning rubbish without permits. Only you can prevent fires from occurring in and ~~aroun~~ your home.

One hundred eighty calls were answered by the Red Net Work operators namely: 33 fires, 36 police, 8 for forest fire warden, 2 smokes reported, 25 for the rescue squad, 15 for power failures, 24 information, 21 wrong numbers, and 17 false calls. This is a large increase over any previous year.

I want to thank the operators of our emergency answering service for the efficient job they are doing. The Red Net Work is operating twenty-four hours each day to handle any emergency which may occur. If you call the Red Net Work stay on the line until an operator answers.

The department held monthly meetings and several drills and tryouts of equipment. Attendance has been good but many members work nights and cannot always attend.

The rescue squad answered 25 calls. This is a big increase over any previous year. Two drownings, small children needing resuscitation and highway accidents accounted for most of these calls.

A two way radio was installed in Truck No. 1 and is very helpful as this truck answers all alarms.

Additional grading was done at the Sugar Hill Station and the yard seeded down. This work was done by the members and is a great improvement. The parking lot at the Central Station was also enlarged and improved. The money received for the old truck was used to provide new valves to the tanks of our other trucks, making them all alike in operation.

The Ladies Auxiliary has been very helpful this year. They served several lunches, the annual dinner, and two parties were put on for the department.

Two very important members of the department were taken by during death the year. Elmore Waterman, who served as Clerk of the company for nineteen years died after a severe illness. He will be greatly missed as he was one of our most faithful and valued members. Murray Moody, who was an active and capable member was instantly killed. He was a young and able man liked by every one and always ready to assist in any way in any emergency or activity of the department. His passing has left a gap in our organization which will be hard to fill.

Our great need is men who are available in the day time. This is a common situation in towns in this section and together with the increase in use of gas, oil, machinery, electrical appliances, chemicals, etc. which are potential fire hazards; make the operation of a fire department much more of a difficult task than it used to be.

The department wishes to thank all who have cooperated with us and hopes to be of even greater value to the people of Weare in the work we do.

Respectfully submitted,
GERALD H. HIGHT. Chief
Weare Volunteer Fire Dept.

PREVENTING FOREST FIRES IS OUR RESPONSIBILITY

Costs of suppressing carelessly set outdoor fires in New Hampshire in 1962 cost the persons responsible \$5,545. In the same period, the cost to the cities and towns for control of such fires for which no responsibility could be placed cost another \$24,634. What utter waste of tax money and what shameful and needless loss of timber and esthetic values in the 2200 acres burned. Residences, farms, and other business places were threatened with possible total destruction.

Carelessly set man caused fires can be prevented if every citizen remembers his responsibility in regard to any source of fires in the open. We can help to keep our fire loss low by remembering these simple rules.

1. Dispose of burnable waste at the town dump.
2. If waste or brush is to be burned on the premises, obtain a permit from the forest fire warden. Seasonal permits may be issued for approved incinerators and sites.
3. Burn safely by picking a clean site, avoiding dry windy weather and preferably burning late in the day.
4. Have something to keep the fire under control—pails of water, garden hose, sprinkling can, broom for grass fires or shovel will help.
5. Be sure your fire is dead out before you leave it.
6. If the fire gets out of control or if you see a fire out of control, report promptly to your warden or fire department. Continue to fight it until help arrives.

There is potential danger when matches fall into the hands of children. It is never too early for parents to install in the child's mind a respect for fire.

Keep our town safe from fire.

In 1962 we had 5 fires.

We burned 1 ½ acres.

Permits issued — 289

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Weare

I am pleased to submit my first annual report relating to the Weare Schools.

The Weare schools have a total enrollment of 328 pupils as follows:

ELEMENTARY

Grade 1 - 33	Grade 5 - 24
2 - 25	6 - 26
3 - 33	7 - 33
4 - 24	8 - 27

HIGH SCHOOL

Grade 9 - 29
10 - 26
11 - 30
12 - 18

The additional classrooms resulting from the high school renovation have provided an excellent science laboratory, an added classroom, an improved home economics area, and a library area.

The new science laboratory has been equipped with modern laboratory tables, teacher demonstration tables and hood. This equipment was made available under the National Defense Education Act funds from which fifty percent of the cost are available. Weare residents may well be proud of one of the finest gymnasiums in the area. Provided in the gymnasium are boys and girls locker and shower room areas. Completed in January 1963 the outstanding gymnasium also serves as a cafeteria for the elementary and secondary school pupils.

The school board has wisely made additional space available in an effort to avoid an overcrowded school problem. Quality education is not generally possible to attain in an overcrowded school, with inadequate teaching facilities and with the use of

modern teaching techniques and the enrichment of courses curtailed by a limited physical plant.

The added facilities provide an opportunity for each boy and girl in town to develop his potential to the limit of his ability. The future strength of Weare and America is in its well educated youth.

STAFF

The salary schedule for Weare has been revised by the school board. This forward looking move will tend to attract and retain capable and dedicated teachers for the Weare schools.

A qualified staff with a low annual turnover of personnel is an assurance of the continuity of a sound educational program and a minimum of interruption of a coordinated educational effort, over the period of the pupils' enrollment in the Weare school system.

The school board has made adequate provisions for satisfactory facilities for the staff, and adequate equipment and materials for teachers and pupils for an effective educational opportunity.

Mr. Joseph Dischino, as a full time principal effective September 1962, has an opportunity for supervision that will result in improved instruction. In a full time position, the principal can exert leadership to unify and coordinate the school programs based upon teacher supervision, continual evaluation, and curriculum development effecting changes as they evolve from a mutual effort on the part of the teachers, principals and the administration.

Guidance services will be available in the fall of 1963 for the Weare pupils. The services provide an opportunity for every boy and girl to receive counselling relative to his course selection based upon his interests, needs and abilities and to benefit from professional advice regarding future academic and vocational pursuits.

In conclusion, I wish to express my appreciation for the many courtesies and excellent cooperation and encouragement extended to me by the school board, principals, teachers, pupils and citizens of Weare. I also wish to acknowledge the invaluable assistance given me by Spiro Anastos, Teacher Consultant, Mrs. Ruth Henk, Mrs. Harold Smith and Mrs. Clifford Martel, present and past office personnel.

I trust that our joint efforts in behalf of the educational welfare of the youth of Weare will maintain and improve the quality of the education in Weare.

Respectfully submitted,
 ERNEST PELTONEN
 Superintendent of Schools
